Please try to answer all structures (or guess) before you look at the answers! Choose one of the following categories: Thoracic Cavity Anatomy. General ...

Circulatory System - Penn State Biology

When dealing with the circulatory system, it is best to think of the vessels like a road map, one vessel leads to another with branches into these two vessels...etc. The cats have been injected with colored latex to make identifying the vessels easier. The arteries will have a pink color and the veins will have a blue color.

Cat Dissection Circulatory System Questions and Study ...

One of the first tasks of the cat dissection is to identify the vessels of the cat. We remove the pericardium from the heart and carefully tease away the connective tissue to reveal the arteries that leave the heart. If you follow the aortic arch, the first main vessel of the cat is the brachiocephalic artery. It is named because it splits into vessels that go to the head (cephalic) and a vessel that goes to the upper limbs (brachii).
