\* Start coding early. Get hands on experience with programming as soon as possible. Keep your expectations right. You'll have to spend a ton of time to learn programming. There is no way around. Don't give up easily on the initial setbacks you mi...

### What are some tips for first year BTech CSE students? - Quora

Then set aside Technician A's statement, and consider Technician B's statement by itself. It might help to write down a T or F for Tech A, and a T or F for Tech B. If only one of the statements is true, then your answer is either A or B. If both statements are true, your answer is C. If both statements are false (and there are times when this is the case), your answer is D.
