Undeniable: Evolution and the Science of Creation

"Evolution is one of the most powerful and important ideas ever developed in the history of science. Every question it raises leads to new answers, new discoveries, and new smarter questions. The science of evolution is as expansive as nature itself. It is also the most meaningful creation story that humans have ever found."--Bill Nye

Undeniable: Evolution and the Science of Creation ...

Throughout Undeniable, Bill Nye claims that evolution and science are the same. That is the reason he views any rejection of molecules-to-man evolution (and the extraordinary age of the earth on which it depends for even a veneer of plausibility) as a complete rejection of all things scientific and proof of science illiteracy.
